## Contents

### ORIGINAL RESEARCH PAPERS

- 1145** Induction of NKG2D ligands on human dendritic cells by TLR ligand stimulation and RNA virus infection  
*T. Ebihara, H. Masuda, T. Akazawa, M. Shingai, H. Kikuta, T. Ariga, M. Matsumoto and T. Seya*
- 1157** T cells specific to hapten–carrier but not to carrier alone assist in the production of anti-hapten and anti-carrier antibodies  
*T. Shimizu, Y. Osaka, C. Banri-Koike, M. Yoshida, K. Endo, K. Furukawa, M. Oda, A. Murakami, S. Ogawa, R. Abe and T. Azuma*
- 1165** Imaging CD8<sup>+</sup> T cell dynamics *in vivo* using a transgenic luciferase reporter  
*M. Azadniv, K. Dugger, W. J. Bowers, C. Weaver and I. N. Crispe*
- 1175** Forced expression of Id2 in fetal thymic T cell progenitors allows some of their progeny to adopt NK cell fate  
*S. Fujimoto, T. Ikawa, T. Kina and Y. Yokota*
- 1183** Cellular FLIP long isoform transgenic mice overcome inherent T<sub>H</sub>2-biased immune responses to efficiently resolve *Leishmania major* infection  
*V. Tseveleki, P. Tsagozis, O. Koutsoni, E. Dotsika and L. Probert*
- 1191** Human CD4<sup>+</sup> central and effector memory T cells produce IL-21: effect on cytokine-driven proliferation of CD4<sup>+</sup> T cell subsets  
*T. Onoda, M. Rahman, H. Nara, A. Araki, K. Makabe, K. Tsumoto, I. Kumagai, T. Kudo, N. Ishii, N. Tanaka, K. Sugamura, K. Hayasaka and H. Asao*
- 1201** The aged thymus shows normal recruitment of lymphohematopoietic progenitors but has defects in thymic epithelial cells  
*J. Gui, X. Zhu, J. Dohkan, L. Cheng, P. F. Barnes and D.-M. Su*
- 1213** IL-21 synergizes with IL-7 to augment expansion and anti-tumor function of cytotoxic T cells  
*S. Liu, G. Lizée, Y. Lou, C. Liu, W. W. Overwijk, G. Wang and P. Hwu*
- 1223** Programmed death-1 blockade enhances expansion and functional capacity of human melanoma antigen-specific CTLs  
*R. M. Wong, R. R. Scotland, R. L. Lau, C. Wang, A. J. Korman, W. M. Kast and J. S. Weber*
- 1235** Modulation of CD4 co-receptor limits spontaneous autoimmunity when high-affinity transgenic TCR specific for self-antigen is expressed on a genetically resistant background  
*Z. Illés, H. Waldner, J. Reddy, A. C. Anderson, R. A. Sobel and V. K. Kuchroo*
